

GWO BASIC SAFETY TRAINING REFRESHER

Goal:

To ensure personnel in the wind industry maintain the skills needed to handle emergencies, adhere to safety protocols, and meet GWO compliance standards.

Target group:

Wind industry personnel whose Basic Safety Training (BST) certification is nearing expiry and require a skills refresher.

Highlights:

- Comprehensive refresher course covering all essential safety modules for wind industry compliance.
- Combines theory with practical exercises to reinforce critical skills.
- Extends GWO certification validity by two years.

Description

The GWO Basic Safety Training Refresher (BSTR) course is designed to reinforce and update critical safety skills for wind industry personnel who have completed the Basic Safety Training (BST). Covering First Aid, Manual Handling, Fire Awareness, Working at Heights, and Sea Survival modules, this course ensures participants remain proficient in recognising and mitigating hazards, performing emergency response procedures, and safely using PPE. Each module includes practical exercises and updated safety protocols to keep participants current with industry standards. Successful completion extends certification validity by 24 months.

Compliance:

Global Wind Organisation

Previous knowledge:

Valid GWO Basic Safety Training (BST) certification.

Requirements:

Candidates are required to be fit and able to complete all aspects of training. Appropriate PPE for practical elements will be provided by Outreach Rescue.

Progression:

Recertification is required every two years; participants may progress to specialised safety training as needed.

Theoretical elements:

- Review of safety protocols and hazard identification
- Updates on legislation and industry safety standards
- Refresher on emergency response and risk management

Practical elements:

- First aid application and CPR refresh
- Manual handling practices and injury prevention
- Firefighting and fire prevention exercises
- Working at heights with safety systems review
- Sea survival skills including life raft and survival equipment

GWO BSTR, Global Wind Organisation

Course length 24 hours (3 days)
